

I'm writing you concerning the the Low Power FM service. Please do not expand these service and run the risk of loss of such radio stations as K-love. K-Love serve hundreds of thousands of listeners and the thought of if being replaced is very unsettling. I know that K-love supports wholesome values and has a positive and encouraging impact on communities all across America. Please preserve this service that I have come some much to value. God Bless your decision

Deborah Stutler
